  - a. is used for both NHL and CLL
  - b. is used in patient regardless of kidney or liver function
  - c. is an oral tablet
  - d. may be taken with CYP1A2 inhibitors
3. **Vimpat is:**
  - a. given only by injection
  - b. available in both oral and injectable formulations
  - c. used for grand mal epilepsy
  - d. safe for use in children
4. **Xenazine:**
  - a. is a drug used to cure Huntington's Disease
  - b. is an injectable
  - c. is dosed on an individualized basis
  - d. has no known drug interactions
5. **Which drug is used to treat Cryopyrin-associated periodic syndromes?**
  - a. Cinryze
  - b. Banzel
  - c. Eovist
  - d. Arcalyst
6. **Arcalyst is considered an orphan drug.**
  - a. True
  - b. False
7. **Cimzia:**
  - a. is an oral product
  - b. is an agent for treating Crohn's Disease
  - c. is stored at room temperature
  - d. has no drug interactions
8. **Cinryze is:**
  - a. taken orally
  - b. derived from placenta
  - c. administered IV
  - d. frozen
9. **Cinryze is made from human plasma from screened donors.**
  - a. True
  - b. False
10. **Nplate:**
  - a. is for subcutaneous injection
  - b. raises platelet levels in patients with ITP
  - c. requires refrigeration
  - d. all of the above
11. **Recothrom:**
  - a. is reconstituted before use
  - b. is used topically
  - c. thins the blood
